Making Your Course Available/Unavailable

Course Availability in Blackboard is now moved to the Customization options within the Control Panel.

1. In the Control Panel, select the double arrows to expand the Customization menu.

2. Select the **Properties** button.

3. In the Set Availability option (#3), select **Available** to show the course to your students. Select **Unavailable** to not show the course to your students.

4. When finished, press submit.
