How to Change your monitor resolution

(Windows XP)

Step 1. Close or minimize all open windows until you see your desktop.

Step 2. Right Click your mouse on your desktop.

Step 5. In the **Screen Resolution** section of the Settings tab, move the slider to the right to increase the screen resolution.

Step 6. Select **Apply**. Your screen will become black for 1-2 seconds and the screen will reappear with the new resolution settings. A box will ask you if you would like to keep the settings. Select **Yes**.
