Rave Alert System: Blackboard Communication

The Rave Alert System is integrated with Blackboard to send communication alerts to students through e-mail or text message. Instructors and students can adjust the way the Rave Alert System notifies them regarding course announcements, calendar items, assignment information, and grades that the instructor posts.

If you haven’t already set your Rave Alert Contact Settings (Mobile Phone and Email Settings) Click Here
Instructors and students are encouraged to update their Rave Alert Contact Settings to be sure that they receive important school related alerts (i.e. closings, emergency updates, etc.).

Instructors and students can update their Blackboard Rave Notification Settings using the following process:

1) Log in to Blackboard.

2) Following login to Blackboard, click on the ACADEMIC RESOURCES tab at the top of the screen.

3) On the Academic Resources page, locate the Tools section in the left column. In the Tools section, click the link that says RAVE NOTIFICATION SYSTEM.
4) Since you are logged into Blackboard, you will be automatically directed to the RAVE ALERT SYSTEM BLACKBOARD ANNOUNCEMENTS group. **Note: You need to be logged in to Blackboard in order to change your Rave Blackboard settings.**

On this page, you can select options to have Blackboard notify you via email or text alerts regarding course announcements, calendar items, assignment information, and posted grades. **Note: Instructors will receive a copy of all notifications sent based on their Rave Settings on this screen.**

When you are done choosing your options, click **SUBMIT**.

A confirmation message will appear on the screen.

```
Alert settings have been saved
```

Now, you will receive notifications from Rave via e-mail or text message regarding the items you selected.
